## *Welcome to Bethany Arboretum!*

Our vision of the Bethany Arboretum is  
that the trees on the property will be  
living reminders to us and visitors of  
the interconnection of all creation.

By associating trees with Martha  
Sisters, events, and values, we honour  
the deep connection of our shared  
journey.

Native and non-native species make  
visible the invitation nature gives us to  
grow into unity amidst diversity.

## *Enjoy the Bethany Tree Walk!*
